Loren W. Christensen Dave Grossman : By Dave Grossman - On Combat: The Psychology and Physiology of Deadly Conflict in War and Peace: 2nd (second) Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised By Dave Grossman - On Combat: The Psychology and Physiology of Deadly Conflict in War and Peace: 2nd (second) Edition:

2 of 2 people found the following review helpful. Read this bookBy I. LeboldOne of the best books I have read in years. I am so stunned by the information in this book that every few pages i have to put it down and contemplate what I've just read.0 of 0 people found the following review helpful. I have read better.By Robert N.Didn't care for this book. I thought this was going to have a bit more psychology and a little less chest puffing and self aggrandizing. If I wanted to read military stories with just a smattering of psychology I would have purchased a different book.0 of 0 people found the following review helpful. Five StarsBy Greg RichardsonGreat book. I have my own and bought another for my son.

Will be shipped from US. Used books may not include companion materials, may have some shelf wear, may contain

highlighting/notes, may not include CDs or access codes. 100% money back guarantee.
