review helpful. GreatBy shangdianThe book is brand new.The seller went extra miles to redeliver the book to my new address.0 of 6 people found the following review helpful. Good item, fast deliveryBy Justin SIt is as good as a brand new one! I ordered it on Monday afternoon, and it arrived at my apartment at 10:00 AM on Wednesday. Fast shipping!

This text presents a general introduction to soft tissue biomechanics. One of its primary goals is to introduce basic analytical, experimental and computational methods. In doing so, it enables readers to gain a relatively complete understanding of the biomechanics of the heart and vasculature.
