**Fred M. Hoppe : Multiple Comparisons, Selection and Applications in Biometry (Statistics: A Series of Textbooks and Monographs)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Multiple Comparisons, Selection and Applications in Biometry (Statistics: A Series of Textbooks and

Monographs):

Aims to provide in-depth descriptions of the latest developments in multiple comparison methods and selection procedures, while emphasizing biometry. This text is published in honour of the 70th birthday of Charles W. Dunnett - a pioneer in statistical methodology.
