**From Robert C Gallo : The Human Retroviruses** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Human Retroviruses:

This book presents twenty-four tightly focused reviews on the biology, molecular biology, pathology, and epidemiology of the human retroviruses, particularly HIV and HTLV (Types I and II), as well as animal model systems (simian retroviruses, STLV and SIV, and mouse models). Editor Robert C. Gallo is recognized as a co-discoverer of the AIDS virus.
