Mark Blaxill, Dan Olmsted : Vaccines 2.0: The Careful Parent's Guide to Making Safe Vaccination Choices for Your Family before purchasing it in order to gage whether or not it would be worth my time, and all praised Vaccines 2.0: The Careful Parent's Guide to Making Safe Vaccination Choices for Your Family:

2 of 2 people found the following review helpful. I am so glad I purchased and read this bookBy CustomerThis book is

a must-read for all new parents. Incredibly informative without being overtly anti-vaccine and contains vital information for anyone who questions their vaccine choices. I am so glad I purchased and read this book!! I cannot say thank you enough to the authors for compiling information that is difficult to find in this format elsewhere. 2 of 2 people found the following review helpful. ... find the middle ground between no vaccines and "The recommended schedule". If you are wanting to be well ...By HillaryThis book was very helpful in guiding me on how to find the middle ground between no vaccines and "The recommended schedule". If you are wanting to be well informed this is a great easy to read book. 1 of 1 people found the following review helpful. Extremely informativeBy A. ThompsonI recommend this book for everyone interested in learning more about vaccines and the illnesses they "fight". I started reading about the subject with Dr. Sears' "The Vaccine Book", but this is much more detailed about ingredients and effectiveness of shots.

The CDC's bloated vaccine schedule has doubled since 1988, after the federal government gave pharmaceutical companies immunity from lawsuits. Autism and other childhood disorders like asthma, ADHD, juvenile diabetes and digestive ailments have skyrocketed. And parents are understandably nervous, desperate for objective guidance that takes those concerns seriously.

About the AuthorMark Blaxill is the father of a daughter diagnosed with autism, co-founder of the Canary Party, and editor at large for "Age of Autism." He has authored several scientific publications on autism. He received his A.B. from Princeton and an MBA from Harvard. He co-authored the book, "The Age of Autism." Dan Olmsted is co-author of "Age of Autism" and Editor of the blog of the same name. He was an original staff member of USA Today and Senior Editor for USA Weekend magazine and United Press International. He is a member of the National Press Club.
